GENERAL LEWIS CASS, whose death at Detroit on last Sunday morning, we announced yesterday, was in the 84th year of his age, having been born in Exeter, N. H., October 9, 1782. His father was a soldier in the war of Independence, and was present at the battle of Bunker Hill. In his seventeenth year General CASS started to seek his fortune, and crossed the Alleghenies on foot, in search of a home in the Great West. At Marietta, Ohio, he halted, studied law, and became successful. At twenty five he was a member of the Ohio Legislature, and originated the bill that terminated the proceedings of Mr. AARON BURR. In 1807, he was appointed by President JEFFERSON Marshal of Ohio, which office he held till 1811, when he volunteered as a soldier to repel Indian aggressions. He was elected Colonel of the Third Regiment of Ohio Volunteers. In 1812 he urged the immediate invasion of Canada, was the first to land in arms on the enemy's shore, and was the author of the proclamation announcing the invasion. After the capitulation of Detroit, he was made successively a Colonel and Brigadier General in the regular army. Being without a command, he served as Aid-de-Camp to General HARRISON at the battle of the Thames. In 1813 President MADISON appointed him Governor of the Territory of Michigan. In 1831, President JACKSON made him Secretary of War. In 1836 he was appointed Minister to France. In 1845 he was elected United States Senator. In 1848, he was the Democratic candidate for the Presidency, and was defeated by General TAYLOR. In 1849 he re-entered the United States Senate. In 1857, he became Secretary of State to President BUCHANAN, and served till 1860.

THE persons concerned in the late Express robbery near St. Louis have all been arrested and the money recovered. The robbery was planned by Edward Thayer, fireman on the train, who knew the habits of the messenger, and he engaged William Wilson and A. M. Faulk as accomplices, entrusting to them the execution of the job. Wilson and Thayer entered the car, where, as they expected, they found the messenger asleep. Faulk was left on the outside as a lookout, and was to give the alarm in case any person approached. Chloroform was used upon the messenger. The key of the safe was taken from his pocket, the safe unlocked, and the money packages, amounting to $21,000, were taken out; after which the safe was locked and the key returned to the messenger's pocket. The fireman then returned to his post on the train, Wilson took a seat in the car, and Faulk prepared to leave at the first stopping place.

THEN vs. NOW.—The Memphis *Argus* (Tory), in 1861, was no lover of Andrew Johnson, to judge from the following elegant extract from one of its editorials:

"We should like to see Andrew Johnson's lying tongue torn from his foul mouth, and his miserable carcass thrown out to poison mad dogs, or hung upon a gibbet as high as Haman, to feed the carrion buzzards."

But, in the year of grace, 1866, the Memphis *Argus* (still Tory), discourses pleasantly of our President, as follows:

"The iron firmness, the undismayed soul of a single man, is all that stands between us and the fateful vortex of anarchy and resultant despotism which has engulfed the lives and fortunes of many millions before us. Let us rally to the side of that man, determined to save or perish with the Republic."

On which the Jersey City *Times* propounds the pertinent question, "*Who* has changed."

THE Titusville *Herald* says:

"We have been informed by a gentleman just arrived from Pittsburgh who is interested in the oil trade, that owing to the current report that 250,000 or 300,000 barrels of crude oil were stored in Pittsburgh, he made particular inquiry as to the correctness of this report, and found that there are not more than 30,000 barrels stored there at present. He also made inquiry with regard to that 50,000 barrels which were reported to have arrived there in two days during the last high water, and he found the amount to be but 6,000 barrels."

Those reports were fraudulently manufactured to promote the interests of certain speculators, at the expense of honest traders.

THE officers of the Petroleum Bank of Titusville, the Crawford County Bank, and the Venango Bank of Franklin, are said to have employed counsel at Harrisburg to bring suit against the late Auditor General, Mr. SLENKER, and, through him, against the State of Pennsylvania, to recover the value of the $1,500,000 of federal bonds he let CULVER, PENN & Co. have contrary to law, as we explained yesterday.

MR. CHARLES H. SHRINER, Collector of federal taxes in the fourteenth district, has been making speeches in favor of the President's policy. One of the Seven Wonders of the World
is the Hydro-Carbon Burner. It challenges criticism and astonishes the master mechanical geniuses of this living age. This invention is indispensible for a stove or furnace, but for making steam it has no equal in the world. Wherever a fire is wanted, there this burner can be applied in any place, and give the most wonderful heat that man ever saw. Parties that buy this county or more will have nothing to do only to furnish what the community demand and count their money. They are as sure of a fortune as the sun is to rise and set. This wonderful Water Burner is now on exhibition and territory for sale at 184 Wood street, near Fifth, Pittsburgh, Pennsylvania.

Cheering Facts for the Bilious
Every day demonstrates more clearly that Liver Complaint, in all its distressing forms, can be controlled or cured without difficulty or inconvenience. It is an obstinate disease, but its obstinacy is not proof against the pertinacious, remedial and restorative operation of HOSTETTER'S STOMACH BITTERS. That genial corrective *compels the organ to do its duty*. It *must* secrete regularly and healthfully under the influence of the Bitters. Their action brings it back from a state of rebellion into perfect harmony with the laws of health. If there is costiveness, it disappears; if there is side-ache or back-ache, it ceases; if the skin and the whites of the eyes are tinged with superfluous bile, they recover their natural hue; if the appetite is gone, it returns; if the digestion is impaired, it is restored; in brief, whatever the symptoms of the complaint may be, and whatever the phase it has assumed, *a cure is certain*. Such are the uniform effects of this preparation where bilious disease has been already developed; but in cases where there is merely a constitutional tendency to liver complaint, it must be prevented throughout life by the regular use, in small quantities, of this palatable antidote. These are proven facts, and should be seriously pondered—or, rather, they should be promptly acted upon—by all persons of bilious habit.

Hostetter's Bitters

WASHINGTON, June 18.—The following was issued this morning:

DEPARTMENT OF STATE,
WASHINGTON, June 18, 1866.

The President directs the undersigned to perform the painful duty of announcing to the people of the United States that Lewis Cass, distinguished not more for faithful services in varied public trusts than by exalted patriotism at a recent period of political disorder, departed this life at four o'clock yesterday morning. The several executive departments of the Government will cause appropriate honors to be rendered to the memory of the deceased at home and abroad, wherever the national name and authority are acknowledged.
(Signed,) WM. H. SEWARD.

Senator Brown has returned nearly recovered in health.

Official information received here shows that while the Fenian movement may be dead for the present, it still retains the same elements, and may materially aid in another spasmodic effort whenever a suitable opportunity occurs. Quantities of arms and ammunition are still moving to various places of deposit, and especially in Pennsylvania. The organization is very strong throughout the country, especially at the South, where there is a large proportion who will hail a fighting opportunity with great pleasure.

NEW YORK, June 17.—During a gale last night one of the walls forming part of the ruins of the Academy of Music fell with a tremendous crash. Fortunately no one was within reach of it. A number of trees were uprooted in and about Union Square, and several ships dragged their anchors in the harbor.

HALIFAX, June 18.—The steamship China, from Queenstown, arrived with news two days later.

Continental news continues war-like.

A Vienna dispatch says that the diplomatic relations between Austria and Prussia will cease the moment the Prussia representative at the Diet leaves Frankfort.

Austria had telegraphed General Gablens to avoid an armed conflict in Holstein. It is stated that should a collision take place, the Austrian army of the North will advance against Prussia. The Crown Prince of Prussia had been appointed Governor of Schlesea during the mobilization of the army.

The Conservative Association of Berlin had appealed to the Electors to sustain the Government in its foreign policy.

It was stated that France had sent a circular urging the middle German States to maintain a complete neutrality.

A Prussian division under General Fliess crossed the Eider on the 7th, and entered in Holstein. They are said to be ordered to occupy Rendesburg, Kiel and Itzehoe.

The Austrians are reported to be evacuating Keil and concentrating at Altone, where General Von Gablens and his staff had arrived.

On the 8th the Prussian troops arrived at Rendensburg and occupied the town. They were peacefully met by the Austrian garrison, who withdrew from the the town the same day, and the parting was quite friendly. Gen. Gablens, the Austrian commander, had issued a proclamation protesting against the entry of the Prussians into Holstein, and stating that he awaited the orders of his sovereign as to the course to pursue. He answered that the government of Holstein is transferred to Altona.

General Manteuffel, the Prussian commander, had sent a dispatch to Gablens stating that in consequence of the declarations by Austria in the Federal Diet, the position of affairs as existing before the Gastein Convention, is re-established. General Manteuffel therefore enters Holstein, but will not occupy the places already in possession of the Austrians. He has received orders to avoid a conflict and not to dismiss the civil functionaries. He concludes by expressing the hope that a peaceful understanding will prevent the outbreak of war.

General Manteuffel has also issued a proclamation to the inhabitants of Schleswig, announcing the dispatch of troops to Holstein for the maintainence of the Sovereign rights of his royal master, which have been placed in jeopardy. The step, however, is merely defensive in its character. General Manteuffel is said to have summoned General Gablens to re-establish a state of common administration in the Duchies.

It is reported that Prussia will forcibly prevent the assembly of the Holstein estates.

A Florence telegram says that Italy will commence hostilities as soon as war is declared in Germany. A decree was issued at Florence on the 7th calling out for service the second categories of classes of 1842, 1844 and 1845.

The Paris *Constitutionnel* says the position of France is not changed by the recent events. She maintains an entire independence, and would only take active part if events of imperative circumstances should render it her duty for the defense of the national honor or interests.

The text of the Austrian reply to the invitation to the Conference is published. It agrees with the representations already made, and expresses surprise that the Pontifical Government was not invited to the Conference.

GREAT BRITAIN.—In the House of Commons on the 7th, on going into committee on the reform bill, Lord Stanley attempted a surprise, moving that the clause reducing the county franchise be postponed till after the settlement of the redistribution of the seats. After a debate, in which Messrs. Bright and Gladstone strongly denounced the evasive tactics of the opposition, the motion was rejected by 287 to 260, a government majority of twenty-seven.

Mr. Walpole moved an amendment, reducing the county franchise to twenty instead of fourteen pounds of rental. This was defeated by 287 to 273, a government majority of fourteen.

These victories were received with great cheering. The persistent attempts of the opposition to defeat the bill by indirect attacks were loudly denounced, especially by the Liberal journals, which contend that in a fair fight the reform bill Conservatives have no chance.

The House of Commons have voted an increase of the annuity of Princess Mary of Cambridge, on her marriage, from two to three thousand pounds a year. In the House of Lords, on the 8th, Prince Alfred took his seat for the first time as Duke of Edinburgh. In the House of Commons the Reform bill was to have been considered, but the opposition shoved it off by numerous speeches on various important topics.

Financial affairs are favorable. The Bank returns show large gold arrivals from America, and the consequent certainty of an early reduction of the rate of discount gave increased firmness to funds, and Consols were advancing. The discount demand continued rather active. The bank rate is ten; but first class paper is taken in open market.

Measures are in progress for the re-establishment of the consolidated Bank. The hope is also entertained of a partial resuscitation of the Agra and Mosterman's Bank. The suspension of the latter bank created a painful sensation, and the instances of ruin caused by it are said to exceed in number and severity those from any single calamity of the same nature. A number of families of Indian officers had all their savings invested in its shares. The break-down of the bank is attributed to the persistent attacks of speculators in shares, whose proceedings are loudly denounced, and steps were being taken on the Stock Exchange to check the operations of the gang, whose proceedings are calculated to overthrow any bank against which they may be directed.

The Stock Exchange Committee, by a vote of 15 to 12, resolved to make no alteration in the mode of dealing with bank shares. A general meeting of the members was to be held on the subject. An official statement of Overend & Gurnis' affairs show but little prospect of the shareholders getting back much of their million and a half of the paid up capital. The direct liabilities are nearly 14,500,000 pounds sterling, exclusive of 8,000,000 pounds of contingent liabilities on bills in the hands of customers. Hawks, Whitford & Co., private bankers at St. Calomb and Falmouth have suspended. The liabilities are estimated at 20,000 pounds sterling.

The weekly returns of the Bank of France show a further large increase of 32,250,000 francs in cash. The Bourse, on the 19th, was quiet. Rentes, 62f. 90c.

A Paris letter says: The Confederate Capt. Maurie has offered the French Government a new torpedo of immense power invented by him. The letter says Maurie has become a naturalized Mexican and is about to be named to a high command in the Mexican navy.

Cholera had broken out at Nantes. There were from fifteen to twenty cases daily, though there were but few deaths.

The Governments of Spain and Portugal have agreed to act in common for defence of neutrality.

The cholera continues its ravages in Holland. The latest weekly return from Rotterdam shows eighty-five cases, fifty-five proving fatal in the principal cities.

There had been rumors that the Turkish troops had crossed the Danube and come in collision with the Romainans, that reinforcements had left Bucharest, and that Haspadar would take command, but they lack confirmation.

LIVERPOOL, FRIDAY, June 8.—The Cotton sales of the week were 71,000 bales, including 6,500 bales to speculators and 9,500 bales to exporters. The market opened buoyant and advanced fully 1d, but subsequently became heavy, and the improvement was lost, the market closing with a decline of ¼@½d on the week. The authorized quotations were: Orleans, fair, 16d; Middling, 13½d; Mobile, fair, 16½d; Middling, 13¼d; Upland, fair, 15d; Middling, 13d. The sales of cotton to-day, Friday, were 15,000 bales, including 5,000 bales to speculators and exporters. The market was buoyant, with an advance of ¼@½d per pound, caused by the American advices received per steamer Java. The stock of cotton in port is 998,000 bales, including 461,500 bales of American.

The Manchester markets are firmer under the American advices. Quotations are unsettled and there is some excitement. Breadstuffs are firm and all qualities have slightly advanced. Corn is dull. Provisions—Market quiet and steady.

London, June 8.—Consols closed at 86@86¾ for money.

American Securities—5-20s, 64@64½, Illinois Central, 75@75½; Erie, 40@41.

The weekly returns of the Bank of England shows an increase of bullion of £1,100,000.

Another report says that at the close 5-20s were 64@64½, Illinois Central, 75@75½, and Erie 42@42½, at which the market appears to be firm, although prices relative in London and New York have now nearly approximated. Further buying for export is almost stopped. Atlantic and Great Western bonds are active under low quotations.

Liverpool, June 8.—Breadstuffs—Richardson, Spence & Co., and Bigland, Athaye & Co., report flour firm, and an advance of 1c per sack. Wheat has an upward tendency of 2@3 per cental. Corn dull, with a decline of 3@6d per quarter. Provisions—Messrs. Gordon, Bruce & Co., and Richardson, Spence & Co., report beef steady; pork firm; bacon has an upward tendency. Lard nominal at 73s. Sugar steady. Coffee steady. Rice quiet and steady. Petroleum steady, at 1s 10d@2s. Breadstuffs firm. Wheat advanced on English, no American offering.

Liverpool, June 9.—Cotton sales to-day of 10,000 bales, including 2,000 bales to speculators and exporters. The market was firm with yesterday's advance fully maintained. Breadstuffs market firm. Provision market steady.

London, Saturday Evening, June 7.—Consols closed at 86¾@87, for money. American Stock 5-20, 65½@66. Illinois Central 75@76; Erie 41@42.

TWO DAYS LATER.

The indications that war will soon be declared are increasing. The entry of the Prussians into Holstein is regarded by some as a virtual commencement of the war. It is asserted that Austria regards such entry as a breach of the Gastein Convention, and the forcible occupation of Holstein as a *casus belli*.

The Duke of Grammont had gone from Paris to Vienna, and his mission is said to be a last effort for conciliation. He had a conference with Count Mensdorff and an audience with the Emperor of Austria. Mensdorff is stated to have positively maintained the attitude of the Austrian reply to the invitation to the conference.

The Russian Cabinet courier reached Vienna on the 7th with an autograph letter from the Czar to the Emperor.

Bismarck has issued an important dispatch to the Prussian representative abroad in very bitter terms towards Austria, and in one passage says, all our information agrees that the determination to make war is settled in Vienna. On the other hand it is said that Prussia has been most conciliatory for peace, but the corresponding feeling no longer exists at Vienna. Not only was there manifested an entire absence of all readiness to enter into confidential negotiations and discuss the possibility of an agreement, but the expression of the influential Austrian statesmen and counsellors of the Emperor have been reported to the King from an authentic source, which leaves no doubt that the Imperial Minister desires war at any price, partly in hope of successes in the field, partly to ride over domestic difficulties, nay, even Austrian finance by Prussian contributions, or by honorable bankruptcy. We can only see a decided intention on the part of Austria forcing war with Prussia, and at most making use of negotiations as to a Congress, in the meantime gaining procrastination, not only for her own not entirely completed arrangements, but especially for those of her allies. The fact of war is a settled determination at Vienna. The only further point is to choose the favorable time to begin. Referring to the Duchies, Bismarck says perhaps we shall at least be believed when we solemnly protest against any nation, or wishing to make good our claim to the Duchies by force or disregard to the rights of the co-possessor. Now, too probably, it will not be difficult to understand the real motives of the armaments by which Austria has given rise to the present crisis, and whose removal by means of the Congress she has further taken care to render impossible by the attitude she had assumed. The circular is dated June 4th.

The London *Times* says that such a dispatch as the above has not often been opened by an European Minister. The Prussian statesman seems now to think that courtesy is unnecessary in his communications with Austria. All the pride, the bitter hostility, the almost fanatical purpose, which have been necessarily repressed during long negotiations, break forth when negotiations may be considered at an end. The dispatch breathes the spirit of war, and seems to have been written in anticipation of an immediate rupture.

The London *Telegraph* says with this dispatch the last hope of peace has disappeared, and hostilities become inevitable.

Consols closed at 86@86¾. Five-twenties at 64@64½. Illinois Central shares, 75@76. Erie shares, 40½@40¾. Breadstuffs show an advancing tendency. Provisions steady.

The political news is unchanged.

VERY LATEST BY THE CHINA.—*Liverpool, Saturday, June 9.*—Evening.—Cotton; sales to-day 10,000 bales, the market closing firm, with the advance of yesterday fully maintained. Breadstuffs firm. Provisions steady.

London, Saturday, June 9—Evening—Consols closed at 86½@86¾, for 5-20's, 65@66 for Illinois Central shares, and 75@76 for Erie shares.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON, July 18, 1866.

SENATE.

Mr. Saulsbury rose to an explanation. His attention had been called by a friend to a statement of the New York *Tribune*, of Friday last, in allusion to the Rosseau and Grinnell difficulty, which was to this effect: "Among his (Rosseau's) backers, was Senator Saulsbury, who had been waiting for some time, anticipating the assault." He (Saulsbury) had never assaulted anybody, and had never advised anybody to assault another. His presence at the disturbance on Thursday last was purely accidental. The statement in the *Tribune* was false, and its author a wilful liar.

Mr. Harris presented the petition of seven New York banks, asking for an extension of time on the tax on circulation, which was referred to the Finance Committee.

Mr. Sewart presented a petition for the transfer of the Indian Bureau to the War Department, which was referred to the Finance Committee, and reported back the tax amendments. The bill was ordered to be printed.

Mr. Wilson, from the Military Committee, reported a resolution for the appointment of a committee to investigate the war claims of the State of Iowa.

Mr. Wade offered a joint resolution for the printing of the reports of Generals Sherman, Thomas, Pope, Pleasanton and Foster, made since the close of the report of the Committee on the conduct of the war, which was passed.

Mr. Howard called up the bill in relation to the Pacific Railroad bill which was under discussion Friday last.

Mr. Conners offered an amendment authorizing the Union Pacific Railroad Company with the consent and approval of the Secretary of the Interior to locate and construct their road from Omaha, Nebraska, westward according to the utmost practicable route.

Pending discussion on the above the morning hour expired, and the special order, which was the bill to regulate the occupation of mineral lands, was taken up. The bill as reported from the Committee on Mines provides as follows:

SEC. 1. That the mineral lands be surveyed and made free to occupation and exploration by citizens of the United States, subject to mining customs.

SEC. 2. Associations or individuals may, after establishing claims, fill patents in the local land offices, and receive patents entitling them to work the claims to any depth desired. Three per cent. of the product of said mines must be paid into the Treasury of the United States until the national debt is paid, and this shall be in lieu of the present stamp tax on bullion.

Section seven gives the present occupants of lands upon which minerals may be found the right of preemption at the rate of one dollar and twenty-five cents per acre, to the extent of one hundred and sixty acres.

Section eight directs the Secretary to set apart lands which prove to be purely agricultural.

Section nine protects the rights of possessors of water rights.

Section ten reserves the right of way for roads, &c.

The bill was discussed by Messrs. Sherman, Hendricks, McDougal and Stewart.

On motion of Mr. Howard the House joint resolution requesting the President to transfer to the several States for ratification, the recent proposed amendment to the Constitution, was taken up and passed.

On motion of Mr. Sherman, pending the bill in relation mineral lands, the Senate went into Executive Session and soon after adjourned.

HOUSE.

Mr. Davis introduced an act to establish in Germany a depository for furnishing information as to the resources of the United States, which was referred to the Committee on Agriculture.

Mr. Trowbridge introduced a bill establishing a commission for the settlement of claims against the Government of the United States held by loyal citizens of Tennessee, which was read twice and referred to the Committee on Military Affairs.

Mr. Ashly, of Nevada, introduced a bill granting the right of way and other privileges to aid in the construction of a drainage and exploring the tunnel to Comstock, in the State of Nevada. Read twice and referred to the Committee on Mines and Mining.

Mr. Holmes offered a resolution making the salary of the chief clerk $4,000 per year.

Mr. Ross moved to lay the resolution on the table. The motion was negatived, 32 against 72. The resolution was adopted.

Mr. Baldwin offered a resolution, which was adopted, directing the Committee on Naval Affairs to consider the expediency of abolishing the marine corps or transferring it to the army.

Mr. Morrill introduced a joint resolution to pay the State of Vermont the sum expended for the protection of the frontier against the invasion from Canada in 1864, not to exceed $16,463.81. Read three times and passed. He asked for the passage of a joint resolution to suspend the collection of taxes from St. Albans until further orders.

Mr. Stevens asked what had become of the proposition referred to the Committee on Ways and Means, two years since, asking for the non-collection of taxes on the property burned by rebels near Chambersburg, Pa.

Mr. Morrill, in reply to some questions, explained that the amount taken from the bank was $210,000, all of which had been returned except $12,526.29.

Mr. Wilson, of Iowa, argued that under the principle contended for every bank and individual that might be robbed would have a claim for exemption from taxes, and Congress would have as much business as it could attend to in sitting as a board of relief.

After some further discussion, Mr. Morrill said he would withdraw the proposition for present, so that he might modify it.

Mr. Boutwell introduced a bill to encourage the construction of a telegraph line between California and Idaho. Read twice and referred to Committee on Public Lands.

Mr. Stevens introduced a joint resolution proposing the following article as an amendment to the Constitution of the United States: Congress shall have power to lay an export duty or tax on cotton exported from the United States. The joint resolution was read twice.

Mr. Rogers suggested that a similar amendment of the Constitution had already been referred to the Judiciary Committee.

Mr. Leblond expressed the hope that it would not be pressed to a vote, as it embraced important principles. The vote on Mr. Stevens' Constitutional amendment was:

Yeas—Messrs. Alley, Allison, Ames, Banks, Blomond, Benjamin, Bidwell, Blaine, Broomall, Bundy, Cobb, Cook, Cullen, Donnelly, Drings, Dumont, Elliott, Ferry, Henderson, Higby, Holmes, Hubbard, (Iowa), Hubbard, Jr., (New York), Hubbard, (Connecticut), Julian, Kelley, Kelso, Laflin, Lawrence, (Pennsylvania), Loan, Longyear, McClurg, McKee, Miller, Morrill, Maniton, Meyers, Orth, Perham, Plants, Price, Rice, (Maine), Rollins, Sawyer, Spalding, Stevens, Trowbridge, Upson, Vanarmen, Ward, Warner, Washburne, (Massachusetts), Walkin, Wentworth, Wilson, (Iowa), Wilson, (Pennsylvania), and Windom.—58.

Nays—Messrs. Ancona, Ashley, of Nevada, Baker, Bingham, Boutwell, Berry, Buckland, Coffroth, Davis, Dames, Dawson, Defrees, Derison, Eldridge, Farquahan, Fink, Gorriel, Grosvenor, Hale, Harding, of Kentucky, Harding, of Illinois, Hayes, Hagan, Hooper, Hubbard, Jas. M. Humphrey, Kasson, Kerr, Ketcham, Kuy, Kendall, Latham, Le Blond, Marshall, Marston, Mavvin, McRuer, Morrison, Newell, Niblock, Nicholson, Paine Pike, Pomeroy, Randall, of Kentucky, Raymond, Rice, of Massachusetts, Rither, Rogers, Schinck, Shellaberger, Sitgraves, Stillwell, Taber, Taylor, Francis Thomas, L. Thomas, Thornton, Trembles, Vonstarn, of Missouri, Washburn, of Indiana, Winfield—61.

Mr. Stevens moved the previous question which was seconded, and the concurrent resolution was read the third time.

Mr. Garfield suggested that the proposed article should be amended by striking out the words "on cotton exported from the United States," so as to let it apply to all exports.

Mr. Stevens expressed his willingness.

The Speaker stated that the previous question having been seconded and the main question ordered, no amendment could be offered except by unanimous consent.

Mr. Le Blond objected, because the matter was being forced through under gag law.

Mr. Garfield moved a reconsideration of the vote. The motion was negatived, and so the amendment could not be offered.

The question being on agreeing to the resolution, it was taken by yeas and nays, as the constitution requires, and resulted—Yeas 59, nays 61, so two-thirds not voting in favor thereof, as required, the concurrent resolution was rejected.

The Speaker stated that the Constitutional amendment was published officially by the Secretary of State this morning.

Resolved, By the House of Representatives, the Senate concurring, that the President of the United States be requested to transmit forthwith to the Executives of the several States of the United States, copies of the article of amendments proposed by Congress to the State Legislatures to amend the Constitution.

Mr. Eldridge objecting, Mr. Bingham moved to suspend the rules, which was agreed to by a vote of 92 yeas against 25 nays. The resolution was then introduced and agreed to.

Mr. Miller offered a resolution, directing the Committee on Invalid Pensions to report a bill referred to it on the 22d of January last, granting pensions to the soldiers of the war of 1812. The resolution went over till Friday.

Mr. Ancona offered the following, which was adopted:

WHEREAS, It is alleged that peaceable citizens of the United States, engaged in no unlawful act, have been arrested and are held as prisoners by the British Government in Ireland; therefore, be it

Resolved, That the President be requested to inform the House what information he may have as to such arrests, and what steps have been taken to protect such persons in their rights as citizens of the United States.

Mr. Garfield asked the unanimous consent of the House to offer the following resolution:

Resolved, That the Committee on Mileage be directed to examine and report what discrepancy, if any, there was between the amount of mileage claimed by members and the amount allowed by the Mileage Committee of the 38th Congress; and that the Mileage Committee of this House be directed in no case to allow more mileage to any member than is claimed by him.

Mr. Spalding objected.

Mr. Garfield moved to suspend the rules, in order that he might offer it. Afterward withdrawn.

The House proceeded to the consideration of the bill to provide for restoring to the states lately in insurrection, their full political rights.

Mr. Raymond then addressed the House at great length, in explanation of his position. But little, he said, remained to be done in the way of restoration, and seven months had been spent in discovering how that little was to be done. He repeated his position first to accept the present status of the Southern States, and regard them as having resumed their position of self-government in the Union. Second, That the House should decide on the admission of Representatives by districts, admitting none but loyal men who can take the oath prescribed. Third, To provide by law for giving to the freedmen of the South all the rights of citizens in courts of law and elsewhere. Fourth, To exclude from Federal offices the leading actors in the conspiracy which led to the rebellion in each State. Fifth, To adopt such amendments to the Constitution as may seem wise to Congress and to the States, acting freely and without coercion. Sixth, To take such measures and precautions by the disposition of military forces as will preserve order and prevent the overthrow, by usurpation or otherwise, in any way. He trusted the amendments would be adopted, and that members would be admitted when duly qualified and presenting themselves from loyal districts. His main objection to the bill was that it was an assumption by Congress of a power which was not conferred on it by the Constitution, and he asked to be pointed to the clause of the Constitution which conferred on Congress the right to say that representatives from any State should not be admitted to Congress until that State should perform certain acts. Had the South any such power now? Its population had been diminished, while that of the North had been increasing. In 1860 the Southern States were sixteen to fifteen, and now they were fourteen to twenty-two.

LATEST FROM NEW YORK.

Two More Cholera Cases—New Cases at Quarantine—General Health of the City Good—Two Skeletons Discovered.

NEW YORK, June 18.—*Midnight.*—Two cases of cholera, neither fatal, are reported to-day in the city, one, that of Honora O'Connor, 27 Monroe street, and the other that of William Peters, 68 Water street.

At quarantine there were two more deaths from cholera to-day, and six new cases were received since the last return. Forty-nine cases remain to-night on the hospital ship Falcon.

The deaths in New York last week were 531, a decrease of thirty from the previous week.

The general health of the city is remarkably good, and the Board of Health are taking all possible means to prevent the extension of the epidemic.

Two skeletons were found in a yard near the rear of the house of No. 15 Carmine street, being the bodies of rioters secretly buried in the summer of 1863.

Fatal Case of Cholera in Baltimore—The Disease Contracted from a Room Mate in New York.

BALTIMORE, June 18.—A fatal case of cholera occurred here yesterday afternoon, that of a gentleman who arrived from New York by Saturday night's train. The name of the gentleman is Wm. Howard. His father resides in the western part of this city. He contracted the disease in New York from his room mate, who died of it. He was sick when he left New York. When he arrived here on Sunday morning he was taken to the Infirmary and given the best medical treatment, but was too far gone for the physicians to arrest the disease.

Fatal Railroad Accident.

An accident of a fatal nature occurred last night about eleven o'clock, at the Union Depot yards, on Liberty street. It appears that two Germans, named F. O. Hanson and George Muller, were about going east and were accompanied to the depot by a young man named George Soderstrom. They were ahead of train time, and started to take a walk about the yard. While they were crossing the south track and engaged in earnest conversation an engine approached at an ordinary rate of speed, but they paid no attention to it, evidently not hearing the sound of moving wheels. Muller leaped from the track just as the tender struck his companions. Soderstrom was thrown under the wheels, and they passed over his right leg close to the thigh, and his left arm near the wrist. Hanson clutched, as he fell, the axle of the engine, and was dragged along a considerable distance before the locomotive was checked up. He sustained but slight injuries. Soderstrom died within a few minutes after the accident. He was a single man, about thirty years of age, and had only been in this city about one month. He was a Swede by birth, emigrating to this country and settling in Chicago nearly a year ago. As a machinist, he worked in some shop here, and enjoyed a reputation for honesty, industry and sobriety. Coroner Clawson was notified of the accident, and will hold an inquest this morning at the Union Depot, where the body now lies.

A Sure Test for Kerosene Oil.

The great number of serious accidents resulting from the careless use of kerosene oil makes its explosiveness a subject of much importance. The subject is now before the Legislature of Massachusetts, and efforts are being made to enact a stringent law to prevent the adulterations now practiced. The testimony is very important, and reveals a simple and safe plan by which any of our readers may accurately test the danger or safety of oil before using it. Dr. J. W. Huntoon, of Boston, testified that *good* kerosene oil is not explosive to any dangerous degree whatever, but that it is only when it has an excess of benzine or some other explosive substance that it becomes dangerous. The following test was given before the committee with perfect success, as showing the difference between oil sufficiently pure to be safe, and that which is otherwise: Fill a tumbler three-fourths full of moderately cool water, and pour one-half of a tablespoon of oil on to it; stir it together, then hold a lighted match over it, and if it takes fire from the vapor before the flame comes in contact with the oil, it is dangerous and ought not to be used, as good oil will not thus ignite, and will not burn readily even when a lighted match is thrown into it, but most of the adulterated oil will burn freely. All refined oil manufacturers corroborated this testimony.

A Correct Account.—Governor Curtin and State Treasurer Kemble left Harrisburg for Washington Saturday morning, at the summons of the Treasurer of the United States, to receipt for the three-quarters of a million of dollars to be paid to the State of Pennsylvania by the United States. As an evidence of the correctness of the account submitted to the national authorities by State Treasurer Kemble, it is only fair to make the fact known that the United States Treasurer has deducted but six hundred and seventy dollars from the same. The government at Washington also claim a further reduction to meet the revenue tax.

Reception of the Vigilant Fire Company of Philadelphia—Procession—Lunch—Speeches—Grand Banquet, &c.

In company with the Committee appointed to receive the Vigilant Fire Company of Philadelphia, now on a visit to this city as the guests of the Eagle, we took the accommodation train at eight o'clock A. M. yesterday morning, and after a journey of two hours' duration, found ourselves in the quiet and unpretending town of Greensburg, where we put up to await the coming of the Erie Mail, on which the visitors were expected. The weather, for a tour of pleasure, was not just exactly what we could have wished for, the air being too chilly, the grey fog surrounding the hill-tops in clustering wreaths, while the light patter of the rain made a sort of soothing music on the car roof, which, in the absence of any other symphonious sounds, was rather agreeable than otherwise. Yet the geniality of the company more than made amends for the conduct of fickle mercury, and the trip, taking all in all, was one of unusual pleasure and enjoyment to all participating.

A little before twelve o'clock soft bewitching strains of music came home to our ears, and in a few moments after the train containing the Vigilant boys came thundering along, Beck's Brass Band of Philadelphia—who are with the company—playing as they approached the station *vive la America*, in splendid style. In another instant we were all aboard, when the usual shaking of hands and expressions of good will took place. Introductions followed, and by the time the conductor announced in stentorian tones that we had arrived at the end of our journey, the committee and their guests were as good friends as if they had known each other for years.

THE RECEPTION.

On the arrival at the depot, John H. Hare, Chief Engineer of the Fire Department, with a portion of the Eagle Company, were in waiting. After a brief delay, the hose carriage of the Vigilant—a beautiful piece of mechanism—was taken from the car in which it had been shipped, and placed by the Chief Engineer in the care of the Eagle Company. A procession, headed by Beck's band in uniform, followed by the visitors, to the number of about sixty, dressed in black pants, red shirts, dark overcoats and firemen's hats, with the Eagle delegation bringing up the rear, was then formed and proceeded to the Eagle Engine House, on Fourth street, where Billings G. Childs, Esq., in a neat speech tendered to the visitors the hospitality of the city, assuring them that while in other cities they might receive a more magnificent reception yet nowhere would they meet with truer or warmer hearts than those which now surrounded them.

Charles W. Ridgeway, of Philadelphia, responded in a few pertinent remarks on behalf of the Vigilant.

At the conclusion of the addresses, the Company adjourned to the lower apartments, where a sumptuous repast was partaken of, after which the visitors, under a proper escort, proceeded to the Scott House to enjoy a brief season of rest.

In the evening an elegant banquet was served in City Hall. Speeches were made by C. W. Ridgway, of Philadelphia, and B. G. Childs, Esq., of this city. The whole affair reflected credit on the managers having charge of the arrangements, nothing having occurred to mar the pleasure of the evening. The Vigilants will leave for Chicago to-day at half-past two.

Three Years to the Penitentiary.

As the Court of Quarter Sessions was about adjourning yesterday afternoon, Judge Sterrett directed one of the tipstaves to inquire of a colored man named Henry Dikeison, brought in from prison and placed in the dock for trial, whether he had engaged counsel. The court officer reporting in the negative, a gentleman of the bar was assigned to see after the interests of the man of African extraction. The result of the conference between the attorney and the prisoner was consent on the part of the latter that a plea of guilty should be entered. This having been done, the court, after examining the indictment, said: "Henry, you seem to have been appropriating a little money that did not belong to you; how did you come to do it?" Henry admitted the impeachment modestly, and added, "he (the prosecutor) owed me some money." The Court.—"How much?" Henry.—"About twenty dollars." The Court—"But you took over a hundred, was that right?" Henry, (after some hesitation)—"He allowed as how no one could rob him." The Court—"And you concluded to let him know that you could?" Henry—"Y—e—s, s—i—r." The Court—"Henry, we'll have to send you over the river." After some further questions, Henry answering that he was raised in Ohio, had lived in Pennsylvania, had been in the army, enlisting in Butler county, and had been honorably discharged, Judge Sterrett sentenced him to three years imprisonment in the Penitentiary. The indictment charged him with having stolen one hundred and eighteen dollars from John Singers, in North Fayette township.

Oil Intelligence—New Strikes—Producing Wells—Activity of the Triumph Oil Company.

We are indebted to a reliable gentleman just from the oil regions for the following information: On Wednesday last the Thompson Well, lying between Dennis and Dingley Run, commenced pumping at the rate of fully two hundred barrels per day. This well is on the hill side, one hundred and fifty feet from the waters of Dennis Run.

On the same day at the mouth of Dingley run, a well known as the "Hart well," was tubed, the yield also being not less than two hundred barrels per day.

The Slocum Well, at the mouth of Dingley, keeps up the former production, it having produced for the first six months an average of one hundred and fifty barrels per day. The Lincoln Well, Dennis Run, is producing 175 barrels; Eureka, 200; Haines, 225; Barker, 125; Pierce, 100. These are the principal wells of the locality.

Great activity prevails in the lands of the Triumph Oil Company, some forty wells being under way. As this is a Pittsburgh organization, the favorable news will no doubt be highly gratifying to some of our citizens. The daily product of the region is now fully twenty-five hundred barrels.

Prisoners Quartered.

Yesterday Sheriff Myers, of Cambria county, lodged in the Western Penitentiary three criminals recently sentenced by the Court of that district. One of them, a colored man named John Brown, was convicted of a charge of bigamy, and sentenced to undergo an imprisonment of one year. The other prisoners were John Hornick and his wife, convicted upon a charge of burglary and sentenced to a term of fifteen months in the penitentiary. They were the ingenious thieves who for years past have been robbing a certain dry goods house in Johnstown. They nightly obtained egress to the store through a secret trap door known only to themselves. Their pilfering was conducted upon such a scale as to cause the ruin of several merchants who successively occupied the ill-fated premises.

The Sheriff of Butler county yesterday lodged in the penitentiary one Henry Moore, who was recently convicted of larceny.

Shale, the Alleged Parricide.

While on a visit to Greensburg yesterday, we called on Jailor Kline, and through his courtesy were allowed an interview with young Shale, now in prison there on a charge of shooting his father some three weeks since. The prisoner is a young man of about twenty-two, of medium stature, and dark complexion. When we entered the cell, he was reading a testament in a careless, supercilious way, and did not seem to notice our presence whatever. We questioned him as to his treatment, and he answered that he had nothing to complain of, unless that the cells were very dark, and in warm evenings somewhat oppressive. From what we saw of him we would judge him to be of ordinary education and very careless habits. He is very anxious to have an immediate trial, and expressed a belief that he would be acquitted.

A Bashful Prosecutrix.

Adam Meyer was arrested and brought before Alderman Johns yesterday, charged, on oath of Rebecca Allen, with assault and battery. Rebecca stated that she had purchased some goods in Myer's store, but finding them to be of an inferior quality, brought them back and demanded her money. The shopkeeper refused to refund, when Rebecca admits she used some harsh language towards him, whereupon he pushed her into the street. After a hearing the case was settled, Rebecca being willing to forego the pleasure of vengeance rather than grace the Quarter Sessions with her presence.

The Dusky Maidens, Mary J. Miller and Margaret Lee, residing "on the hill," who got into each other's wool about a young colored gentleman who had been paying his devoirs alternately to each, were before Alderman Strain yesterday, Margaret appearing as prosecutrix against Mary Jane, who it was deposed, had threatened to abbreviate the existence of her rival and thus remove the barrier to a full enjoyment of the attentions of the man who possessed her heart. Alderman Strain, after hearing the parties, concluded not to send the case to Court, and required each to pay one-half the costs.

◆

A Thief Caught.—Officer Fred. Rivers, of the Mayor's police, arrested one William McCann on a charge of larceny, brought against him by Jacob Wilds, of Baldwin township, at whose house he (McCan) had stopped. He is accused of taking a trunk from the house into a field, there forcing it open and taking therefrom a silver watch, coat, pair of pantaloons, vest, and ten dollars in silver. The larceny is alleged to have been committed on Friday, and on Saturday officer Rivers espied McCann seated in the door of a saloon on Penn street, and took him in charge. He was committed by the Mayor for trial.

◆

The Jones Family, residing on Brunot's Island, seem to have had a boisterous time lately. Yesterday morning Mary Jones appeared before Alderman Strain, and brought a charge of assault and battery against her husband, Jerome Jones, and his sisters, Sarah and Kate Jones. Mrs. J. avers that Jerome seized her by the head and dragged her down stairs, the two sisters being present aiding and abetting, and even urging him to kill her. A partial hearing was had, and the accused parties held for their appearance to-morrow, when the case will be further heard.

◆

Meets To-day.—The Grand Jury of the Quarter Sessions will meet to-morrow and endeavor to close up their business as speedily as possible.

◆

For Trial.—J. W. Winters, the false pretense man, has been committed for trial by Alderman Strain, in default of $1,000 bail.

Reading Contest and Musical Soiree

The Annual Reading Contest and Musical Soiree of the Pittsburgh Female College is announced to take place this evening; and from the programme we may safely say that it will prove of a very interesting character. Prof. Philip Phillips, the eminent musician and composer of Cincinnati, will preside at the piano. A number of our most prominent amateur vocalists have kindly consented to enliven the entertainment with their best efforts. A limited number of tickets are offered for sale, and can be obtained at C. C. Mellor's music store, Wood street. The exercises will commence at fifteen minutes to eight o'clock. A rare literary and musical feast may be anticipated by all who attend.

Murder Near Morgantown.—Jerry J. Hutchinson was murdered in his store, near Morgantown, West Virginia, in November, 1865. Recently his wife, her two brothers and her sister's husband were charged with the murder and arrested. A preliminary hearing was had a few days ago, and Mrs. Hutchinson and James Jolliffe, her brother, were held to bail in the sum of $5,000 each to answer a charge of murder. It appears that Hutchinson had been improperly intimate with an unmarried sister of his wife, and threats had been consequently made against his life.

Found Drowned.—In the Ohio river, near Rochester, on Wednesday last, the dead body of a man was found floating. He appeared about twenty-five years of age, was five feet ten inches in height, had black hair, wore light pants, black coat, white and black shirt, heavy boots and leather belt with "U. S." on the buckle. A pack of cards, but no papers, were found upon his person to indicate his name or residence. The body was interred at Rochester, and Coroner McCoy, at that place, will give information on application.

State Superintendent.—Mr. Charles R. Colburn has been reappointed Superintendent of Common Schools. He will continue in office until some time before the expiration of the term of Governor Curtin, when Professor Wickersham, of the State normal school at Millersville, Lancaster county, will take his place. This arrangement is the result of an agreement made in the most cordial feeling between Messrs. Colburn and Wickersham, after the Governor had signified his intention to reappoint Mr. Colburn.

◆

Two More Charges.—Against the colored man William H. Baker, sentenced to the Penitentiary yesterday for two years, Mayor McCarthy lodged two commitments for trial on charges of larceny, preferred by Ira B. Church and Alexander McAteer. The man having been sentenced, we presume the commitments will be for naught.

SAVE THYSELF.
A CURE FOR INTEMPERANCE.
Dr. S. Cutter's Celebrated Stomach Bitters.
The greatest Nervine ever discovered. The addition, within the last ten years, of Dr. Cutter's Nervine Discovery to the English Bitters, makes it a perfect antidote to intemperance. Previous to his discovery of the Nervine, this medicine was before the English public, celebrated as a Tonic and Alterative, in diseases of the Stomach and of the Bowels, and diseases arising from impurities of the blood. As a nervine it is always the choice of the stomach, in all persons addicted to the use of stimulants and narcotics, such as alcohol and malt liquors, opium, morphia, arsenic, tobacco, &c., as it removes the morbid appetite, or craving of the stomach for stimulant; in Headache, Neuralgia, and all nervous diseases, it has no equal as a Nervine.
Ten years use of the improved English Bitters in St. Bartholomew's Hospital, St. Mary's Hospital, Newgate and other prisons, has established its reputation as a cure for intemperance, and gained for it the approval of the attending surgeons in all the hospitals and prisons throughout Great Britain, and is prescribed now by many physicians in private practice, for persons addicted to the use of stimulants and sedatives. In Paralysis, St. Vitus' Dance, Epileptic Fits, Nervous Twitchings, and all Nervous diseases, it has no equal. Wholesale and Retail Agent,

NATIONAL MILITARY ASYLUM.
The Managers of the National Asylum for discharged volunteer soldiers, authorized by Act of Congress, approved March 21, 1866, ask proposals for sites for Asylums by donation or sale. The premises must be situate in one of the Loyal States, contain at least 200 acres of land and be in a healthy location and easy of access by railroad or otherwise. It is the purpose of the managers to erect, without delay, extensive and permanent buildings for said Asylums, and its establishment will be largely advantageous to any section or railroad in the vicinity of its location.
Plans, specifications and estimates for Asylum buildings, including detached cottages, are also asked for the approval of the Board. Liberal compensation will be given for the successful plan.
Proposals, plans, specifications and estimates—the first named to be in writing, containing plot and description of grounds and terms and conditions of transfer—must be sent to Major General B. F. BUTLER, at Lowell, Mass., on or before the 20th day of June, 1866. BENJ. F. BUTLER,
President Board of Managers.
LEWIS B. GUNCKEL, Secretary.
Papers entitled to publish the Laws of the United States are respectfully requested to publish this three (3) weeks prior to the 20th of June, 1866, and send their bill, with copy of notice, as above directed. je1:c5

TAXING GOVERNMENT BONDS.

During the war the necessities of the government put it at the mercy of the leading capitalists of the country. They dictated the conditions of loans, and determined the chief features of the National Banking System. Without intending an impeachment of their loyalty, it may be said, they took excellent care of their own interests.

The National Debt amounts to three billions of dollars. Taking gold as the standard of value, the government realized on its bonds something like sixty per centum. This debt stands as a mortgage upon the properties of all the inhabitants. It represents, according to the estimates of the Treasury Department, one fifth of the aggregate wealth of the nation. Of course this is an exaggeration, for the assessed value of property is ordinarily much below its actual market value. But, making whatever abatements may be thought right, the general fact remains that the public debt represents a very large proportion of the value of all property, real and personal, held by individuals. All this property in government securities is exempt from taxation.

The interest on the public debt amounts to one hundred and eighty millions of dollars a year. Here is so much clear income that bears none of the burdens imposed on most profits derived from other sources. Taking one year with another this one hundred and eighty millions constitutes a large part of all the net income in the country. It is income on superabundant capital—that is, on capital not needed by the owners thereof in their common pursuits—and if used in banking, is made to draw from four to six per centum over and above from what it obtains from the government. So far the existing arrangement tends to reproduce in a modified form, one of the worst evils of feudal ages—the exemption of the rich and powerful from the payment of taxes. There is this difference, however. Under our system the laboring classes are also exempt from taxation. Unless a man's labor produces more than a thousand dollars a year, he pays no tax upon his gains.

When the two extremes of society are thus released from bearing equitable portions of the burden, it is easy to estimate what staggering weights the middle classes have to carry.

The fact that all consumers of commodities pay in reality both the Excise and Impost duty thereon, does not militate against the position we have assumed. The fact that some burdens are shared equally does not lessen the obligation to have all other burdens subject to the same discrimination. It serves rather to mark the line of departure from strict equity.

We do not advocate or tolerate a repudiation of the public faith. National contracts should be held as inviolable as private ones. But public justice is as sacred as the public credit. Invidious distinctions among citizens, of the kind we have pointed out, can only be excused on the ground of inevitable necessity.

Most of the government bonds are redeemable in three years; all of them in seven. In official quarters the possibility of reducing the rate of interest, as old bonds mature and new ones issue, is receiving earnest consideration. It is of even more importance to make the fresh loan liable to all sorts of taxation with other kinds of property. The people of this country will not be permanently content to have the holders of one-fifth or one-eighth part of all the property exempt from the payment of taxes. They ought not to be content.

Men who do not pay taxes for National, State, County, City, Town, School, Pauper and Road purposes—as everybody has observed—are liberal in voting taxes to be paid by other people. Hence, the increase of non-tax-payers is an evil to be guarded against. Most of all should care be taken not to put capitalists into that category. Believing in Equality of Rights, we believe, also, in Equality of Duties.

But, we hold it to be feasible both to reduce the rate of interest on new loans created to cancel old ones, and to subject those new loans to the same burdens of taxation imposed on other sorts of property. The national credit is established because the sufficiency of the national resources are demonstrated. The government is no longer under the thumbs of capitalists, domestic or foreign. It is in position to make such terms as are fair and just to all classes of citizens. It ought to accept none other.

ARMY MORTALITY.

During the rebellion 2,688,523 men entered the army of the United States. Of this number 2,408,103 left the service alive. Some of them deserted, many were dismissed before their terms expired, but the majority returned safe and sound to the place of enlistment and were mustered out. The whole number of deaths in the service was 280,420; of these over 40,000 occurred on the field of battle; 35,000 occurred after battles, of wounds, and 184,331 of disease. Two persons died of sickness to one of battle. In this connection it deserves mention that the mortality from sickness was not near as great as in the British army during the Crimean war. This was owing to superior care and provision. It should be farther considered that if no war had happened, and these two millions and a half of men had staid at home, many thousands of them, in the natural course of events, would have died during the four years the contest lasted. In arriving, therefore, at a fair estimate of the mortality chargeable to the war, it is necessary to subtract the average mortality to which the members of the army would have been liable in time of peace and at home.

* * *

THE Democrats are trying to prevail on the President to assume, what does not belong to him, authority to veto the Constitutional Amendment. It is not likely the President will venture on that experiment.

PUNISHMENT.

We recently said:

"The New York *Tribune* does not believe in the utility of punishment, either as a discipline for offenders or as a restraint upon the spectators to it."

The *Tribune* replies:

"The *Gazette* would have hard work to justify this statement by fair citations from our columns; and we are sure it would intentionally make no other."

In the very next sentence, the *Tribune* makes a "confession of faith," which, we think, covers its full belief on the point in question thus:

"We certainly *do* believe in both the justice and utility of protecting the community from further injury by putting and keeping criminals where they will be restrained from repeating their offenses."

That is precisely what we thought and said. Our contemporary believes in prevention and restraint—not in punishment; so much "pain or suffering," for so much crime—and that only is punishment—it does not believe in. What need have we to hunt other "citations?"

THE RATIFICATION.

Counting all, there are thirty-six States in the Union, and the concurrence of twenty-seven of them in the new Constitutional Amendment will be requisite to its due ratification. Twenty-one will doubtless ratify as soon as opportunity shall be offered. These are, California, Connecticut, Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, Nevada, New Hampshire, Missouri, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, West Virginia, Wisconsin. New Jersey did not ratify the Anti-Slavery Amendment until her vote was no longer necessary; and her present attitude is one of doubt. Of the other States a reasonable dependence may be placed on, Arkansas, Maryland, North Carolina and Tennessee. This will make twenty-five. If New Jersey and Delaware can be added to these, the full number will be obtained.

* * *

THE *Homer Iliad*, a Louisiana paper, is in the habit of talking plain to the reconstructed. In a recent number it assigns the (probably) true reason for the discontent and bad temper displayed by many of the late rebels. It says:

"All the howling and discontent now in the South among the white, *rebellious* population, arise from the fact that the negro can no longer be held and transferred as a chattel and an article of barter and trade. For this, the masses of the people of the South—including some poor devils who never owned a slave, and never could, even if they were worth no more than the 'outside pearing of a continental damn' apiece—for this, we say, the masses of the people of the South are *mad;* mad at the National Government, and mad at the loyal and Union element of the country which does not endorse their heresies; and especially mad at the poor negro, and slander him by calling him freer than anybody else—while in fact they hunt him down and murder him with impunity."

Birmingham Schools.

EDITORS GAZETTE:—The annual Examination of the highest department of the Birmingham Public Schools was held on the afternoon and evening of Friday last. The attendance was very large, and the exercises highly interesting.

Honors were awarded to the pupils who had attained the highest average standing in recitations during the year, three to each class. The successful competitors of the first class were, James Mould, Kate Burke and Charles Patterson; of the second class, Annie Moreland, Josephine Breman and Alfred Duff; of the third class, Mary Howard, Joseph Moore, Emma Verner and Emma M'Kee; the first honor of this class being divided.

The whole affair was quite creditable to the principal, teachers and pupils but less so to the Directors, as the school room was exceedingly dingy, and exhibited the appearance of not having been white-washed or cleansed for several years. It was also dimly lighted with lamps, although gas may readily be obtained in the borough. We would beg leave to remind our School Directors generally of the proposition clearly proved by the history of the past, "That in educational matters liberality is the greatest economy, and economy the most ruinous waste."

—Kidnapping children is in fashion at Marchias, New York.

—Gen. Neal Dow, of Maine, is delivering temperance lectures in Liverpool, England.

—In New York Jas. Marshall blew out his brains because his lady love refused to promenade.

—It is now said Kasson will certainly lose the Republican nomination for Congress in the Fifth Iowa District.

—Within the past two weeks fifty-one Assistant Quartermasters of the volunteer force have been mustered out of service.

—Pim Essex, aided by his wife, committed rape upon the person of a little girl fourteen years of age, at Westville, Ohio, a few days ago.

—J. S. Buttrick, a pious post-master of Sterling, Mass., has criminally swindled his neighbors by applying moneys entrusted to him.

—An old man committed suicide in Paterson, N. J., on his first wife's grave, because he had married a second. Widowers, take warning.

—Matthew Gardner, a farmer of Middleburgh, Cuyahoga county, Ohio, committed suicide on Saturday last, by taking poison. He was sixty years old, and gave as a reason for his self-destruction that he had lived long enough.

THE London *Standard* acknowledges the superiority of America in the manufacture of rifled cannon, and declares that "two American turret ships armed with 20-inch guns, would be more than a match for the whole of the English iron-clad fleet combined."

—Murders, shooting affairs and cutting affrays are quite numerous in Louisville. Society is in a fearful condition, but the good people there attribute it all to the warm weather. If the weather be in keeping with the crime, the city must be a little hell on earth.

—The billiard champion of America, Joseph Dion, is about thirty-eight years of age. He has for some time past offered to play any man in the world the American game of billiards on a four-pocket table in Canada, push-shot barred, for the sum of $5,000 in gold.

—Secretary W. I. Hines, of the Fenian Senate, is upon trial in Buffalo, New York, on a charge of having set afoot an expedition in violation of the neutrality laws. His trial will be watched with interest, as he is one of the most intelligent and enthusiastic of Fenians.

—"A son of Rev. James Freeman Clarke, of Boston, and a fellow student at Harvard College, amused themselves, the other day, by walking from Boston to Worcester, forty-four miles, and then going to church twice the next day;" so says a Boston paper, going to church being considered an "amusement" in that region.

—A curious geological fact is noticed in the Isle of Wight, consisting of a layer of pebbles, each about the size and color of a horse bean, which has been gradually moving eastward along the southeastern shore of the island. The layer has now reached Ventnor. A few years ago no such pebbles were to be found on that coast.

—Five bushwhackers entered Independence, Missouri, last week, and going to the house of the City Marshal demanded the key of the jail that they might release one of their comrades, who was confined there. The Marshal refused to give up the key and was instantly killed. An attempt was made to arrest the guilty parties, but it was unsuccessful.

—A Boston physician of repute has found several instances of obstinate cutaneous diseases on the neck of wearers of enameled paper collars, the result of the action of perspiration on the enamelling substances of these articles of wearing apparel. We know of several cases in this city which have been attributed by the medical fraternity to the same cause. The "Glace" collars do the mischief.

A CORRESPONDENT of the Lynn (Mass.) *Reporter*, writing from Savannah, Georgia, gives the following specimens of Southern intelligence:

A man in Florida capped the climax for ignorance the other day when he came into Lake City from the woods. He had just heard some one speak of Lee's surrender, but could not be made to believe it. "No," said he, "I hearn tell, a right smart spell ago, that the Yanks had got Richmond; but as for old Bob Lee surrendering, he hain't done no such a thing. He hain't the boy for that, for I've been in his army once myself, and I know him. He won't do it."

Upon casting up the relative strength of the European nations who are threatening each other with war, it appears that the Austrian empire contains 37,714,520 inhabitants, and 829,293 military men. Prussia has 18,491,220 people, and 743,294 armed men, to which must be added the strength of Italy, which has 400,000 soldiers. These are the armed forces of three nations, and numerous small countries will espouse the quarrel on either side. It is estimated that should war begin in Europe, without involving either England, France, Russia, or Turkey, there will be still engaged on both sides not less than 2,500,000 soldiers.

A lady died in Hartford, Conn., last week, under circumstances which could hardly be accounted for by her physician. A post mortem examination was held, and in the lower part of her body, surrounded by the intestines, was discovered eight or ten plum stones, a lot of fish bones, some egg shells or other hard substances, which had lodged there and formed a large ulcer, which was the cause of her death.

A SOCIETY to promote aerial navigation has been organized in London, and it announces its purpose to push forward the science and rescue it from ridicule. The members believe a man can learn to fly, and they hope ultimately to make the balloon serviceable for purposes of navigation. All gas!

"I was reduced so low with consumption that I was unable to leave my bed, and my physicians informed me that they could do nothing more for me, case being utterly hopeless, that I had got certainly over a month to live. Will be postponed until
Monday, July 9th, '66,
On which occasion
HALF A MILLION DOLLARS IN PRIZES
Will be presented to Ticket Holders, including
$100,000 IN GREENBACKS.

The postponement is an unavoidable necessity, (not so much in consequence of the number of tickets yet unsold) as the positive necessity there is for the proper registration of those already disposed of, which has been delayed in consequence of the negligence and carelessness of a portion of our Agents in making their proper returns.

We advise all parties wanting tickets to send for them without delay, as we have but a limited number yet on hand. We wish most particularly to impress upon the minds of our Agents the importance of their making their returns at once, and of rectifying whatever errors may have crept into their reports heretofore. We will say to those sending for tickets, that if they should all be sold at the time their order is received, the money will be returned.

No applications for new agencies for the sale of tickets will be considered, as we have no more than sufficient tickets to supply those Agents we have already appointed. Tickets are for sale at the principal hotels, book and music stores in the city, and at our office, 133 Dearborn street; price $1.00 each; sent by mail on receipt of price and stamp for return postage.

We invite the particular attention of persons wishing to order tickets by mail to the following

The Coal Diggers' Strike—Convention of Diggers.

Pursuant to notice, the coal diggers now on a "strike," assembled in convention, to the number of three or four hundred, on West Common, Allegheny city, on Monday—first forming in procession on Smithfield street, Pittsburgh, and marching to the place of meeting, preceded by a brass band. Hon. John Morrison, Mayor of Allegheny, was called on to preside, and the assemblage came to order. Mayor Morrison stated he was present at the request of a Committee, and knew nothing further of the object of the convention than what appeared from the published call, which he read.

Mr. John Higgins, of Gamble's coal works, near Temperanceville, was introduced and made a speech. He said the miners were assembled for the purpose of presenting to the public a true statement of the causes which led to the strike, and he invited any pit owner who might be present to contradict any erroneous assertion which might be made. The miners, he said, demand, and would continue to demand, five cents per bushel for all merchantable coal mined by them. The miners were not responsible for the strike, as it was occasioned solely by the conduct of the employers. An effort had been made to reduce the wages to three and a half cents per bushel, and, in addition to this, some of the owners had introduced the "screen system," whereby the miner was cheated out of twenty-five per cent. of his hard earnings. The speaker said that by the use of this screen the coal was separated into "lump," "egg," "nut" and "pea" coal, the lump being the only portion for which the miner received pay. He then exhibited specimens of the "egg," "nut" and "pea" coal, as separated at the mines of Mr. Gray, and Mr. Roger Hartley, all of which he asserted, was readily saleable at prices ranging from six to twelve cents. He argued against this injustice and contended that the diggers were entitled to be paid for every bushel which was saleable. For himself, he would never strike another pick for less than five cents per bushel for all coal mined, and he urged his fellow-laborers to stand firm in maintaining their rights.

The next Speaker was Peter Tiffany, from Robert Long's mines. He said he had been a coal digger for thirty-nine years, having entered the pit when but seven years old. Grasping avarice on the part of the pit owners was the cause of the present strike. He alluded to the dangers of the pit, the great amount of gratuitous labor miners were called upon to perform, and the impossibility of having evils corrected—the loss of employment being the penalty of the slightest murmur. He then alluded at some length to the screens which had been introduced, and contended that by their use the miners did not realize two and a half cents per bushel. The miners were determined to resist this encroachment on their rights. They did not propose to commit outrages, perpetrate murders, or make riotous demonstrations, but, as law-abiding citizens, to maintain the stand they had taken. He concluded by proposing three cheers for G. K. Gamble, Esqr., who, he stated, had agreed to give the increase if the other pit owners would do likewise. The cheers were given. Speeches were also made by Mr. William Shaw and Benjamin White, both of Saw Mill Run, and others, all of the same purport.

A resolution was unanimously adopted that the miners would not go to work for a less compensation than five cents per bushel.

The meeting was characterized by good order, and the miners generally seemed anxious that the public should know the real cause of their striking.

Court of Quarter Sessions.

Judges Sterrett and Brown presiding.

MONDAY, June 18.—The new panel of jurors appeared. Twenty-eight out of forty-eight answered to their names, and eight were returned *n. e. i.*

George Speckmeyer, of the Tenth ward, pleaded guilty to selling liquor without license, and was sentenced to pay a fine of twenty-five dollars and the costs.

George F. Sill was complained of by his wife, Mary A. Sill, for abandonment, and after a hearing, the Court required him to give bond in $400 for the payment of the sum of twelve dollars monthly, from the 1st of March last for the support and maintenance of his wife.

During the hearing of the above case it appeared that Sill had endeavored to dissuade a witness from testifying against him, for which offense he was required to give bail in the sum of $300 for his appearance at the September term.

James B. Moore was indicted for an assault and battery on John S. Pinkerton, striking him with some hard substance, inflicting a deep wound. Moore pleaded guilty and was sentenced to pay a fine of ten dollars and the costs.

James Dougherty was indicted for larceny on oath of William R. Reed. During the destruction by fire of Lafayette Hall, a few weeks since, it was testified that the prisoner feloniously appropriated a fine double-barreled gun valued at two hundred and forty dollars. The gun was recovered, but Dougherty managed to escape from the custody of an officer and remained at large for some days. The jury convicted and the prisoner was remanded for sentence.

John Brown was next arraigned for the larceny of a dozen or more shoe uppers from John Grim, shoemaker, residing in the Second ward, Allegheny. Defendant had been in the employ of the prosecutor as a journeyman. The jury rendered a verdict of guilty, and the prisoner was remanded for sentence.

Louis Bell, colored, was tried for an attempt to commit a larceny in entering the cellar underneath the jewelry store of Will T. Wiley, on Wylie street, on the night of the 3d of January last. Prisoner was tried at the last term, but the Court awarded a new trial. It appeared from the evidence that Bell had been drinking whisky freely, and at two o'clock in the morning was staggering drunk. About two hours later he was discovered in the cellar mentioned by police officers. He effected an entrance through the grating in the pavement. The question for the jury to determine was as to the intent of the defendant in entering the store, or whether his drunkenness was of such a nature as to prevent him forming a specific intent. The jury found him guilty, and J. M. Kirkpatrick, Esq., his counsel, moved for another trial.

Selia Jeffreys was tried for the larceny of three dresses, skirt, shawl and basket from Mrs. Alben, of Lacock street, Allegheny. The defendant had been living at the house of the prosecutrix for a week, when the goods were missed, and upon her arrest, for drunkenness, a portion of them was found in her possession. Verdict guilty. Remanded for sentence.

Henry Spilker, drayman at Zug & Co's mill, appeared as prosecutor against Thomas Smith, tavern keeper on Grant street, indicted for aggravated assault and battery. The facts of the case, as far as it progressed, appeared to be, that the defendant Smith, in company with a friend, left the tavern of the former, and started to Allegheny for the purpose of getting a brass spigot fixed. They spent the day together, drinking freely, and about four o'clock in the afternoon Smith and Spilker came in collision on Penn street, near Alderman Taylor's office. Smith, who is minus the greater portion of one arm, struck first with the stump, and next either with his only fist or the spigot—the prosecuting witnesses swearing positively with the latter, whilst a witness for the defence testified that it was with the former. Evidence was adduced that the injuries he received caused Spilker to be confined to his bed and boarding-house for some two weeks. The case was not concluded at adjournment.

◆

Stealing a Calf's Head, &c.

During the present term of the Quarter Sessions "the Grand Inquest of the Commonwealth of Pennsylvania, now inquiring in and for the body of the County of Allegheny," have presented several very trifling cases of larceny. For instance, last week a man was tried for the larceny of a bottle of hair oil, another for stealing a bucket of grease, and still another for feloniously taking a pair of child's overshoes. Yesterday Stephen Daft, an inoffensive looking German, was duly arraigned for the larceny of a calf's head and the shank bone of a beef, the property of Xavier Heim, from the Allegheny Market-house. The ownership appeared to have been improperly laid in the indictment, and this fact, together with the persuasive effort of R. S. Morrison, Esq., counsel for the prisoner, induced the jury to acquit, and Mr. Daft was discharged from custody by proclamation, the Court taking occasion, however, to admonish him to be careful in the future how he meddled with meat in the stalls of the Market-house.

◆

Sentence Pronounced.—William H. Baker, colored, lately employed as waiter at the Union Depot Hotel, convicted last week on two indictments, for the larceny of a coat from a guest and eighty-five dollars in money from Scott Hughbanks, a fellow employee, and who pleaded guilty to an indictment for assault and battery, was sentenced by Judge Sterrett, in the Quarter Sessions, yesterday. For the assault and battery he was required to pay a fine of five dollars and the costs, and for the larceny of the coat he was ordered to be incarcerated in the Penitentiary for two years. Sentence on the remaining indictment was suspended.

◆

A Wanton Act.—Yesterday about three o'clock a boy threw a stone through a window of one of the cars of the Citizens' Passenger railway on Penn street, near the corner of O'Hara, which came within a few inches of striking an old gentleman in the face. Officer Bell endeavored to arrest the boy, but he made good his escape. The act is inexcusable under any circumstances, and, if caught, the young rascal should be made to suffer for it.

◆

Common Pleas Court—Hon Thomas Mellon presiding.

MONDAY, June 18.—The case of William Stone vs. George, Addison and Thomas Lysle *et al.* was taken up. It is an action of ejectment for a part of the Jones ferry property on the Monongahela river, opposite the city. The case was on trial at adjournment.

◆

Found Guilty.—C. H. Wilhelm, tried in the Quarter Sessions last week for maintaining a nuisance in the shape of a stable and pig pen on the turnpike, in Lower St. Clair township, was found guilty. He was ordered to forthwith abate the nuisance, and to pay a fine of ten dollars and costs, amounting in the aggregate to $165.

◆

Fined and Attachments Awarded.—Yesterday Judge Sterrett, in the Quarter Sessions, imposed a fine of thirty dollars upon each of the following named jurors, and ordered attachments to be issued for them: Thompson Bell, William Baxter, Moses Curry, C. A. Dravo, R. H. Hughes.

TELEGRAMS.

From Washington—No More Confirmations the Present Session—Report of the Committee on Banking and Currency.

NEW YORK, June 18.—The morning papers have the following special dispatches from Washington: After the adjournment of the Senatorial Executive session on Friday, it was agreed in an informal way by the Senators present to make no more confirmations during the present session of Congress except in case of appointment to fill vacancies. This reported determination of the Senate is important to the country and to the scores of persons waiting Executive session.

It is understood that the forthcoming report of the Committee on Banking and Currency will show that the National Banks—Sub-Treasuries of the United States—have responded to Mr. Hooper's circular asking for the amounts in their vaults, subject to the drafts of the government, and to those of disbursing officers. The figures were about as follows in the aggregate on May 1st, 1866: Coin on hand, $94,000,000. Currency in Sub-Treasuries and deposits in National Banks, $136,000,000. Total, $230,000,000. Deduct amount on deposit to credit of disbursing officers, $41,000,000, balance subject to United States Treasurer's draft, $189,000,000. The returns yet to come in are expected to swell the amount of Government funds on hand at that time in these institutions about $2,000,000 more.

The first official copy of the Constitutional Amendment was sent yesterday, by the Hon. S. L. Warner, to Governor Hawley, of Connecticut.

Latest From Mexico—Evacuation by the French—The Empire Verging on Anarchy.

NEW YORK, May 18th.—The *Herald's* City of Mexico correspondent states that the Liberals boldly avow their sentiments in view of the expected withdrawal of the foreigners, and the vacant chair of Maximilian is a bait at which four chiefs, including Juarez, are already casting impatient and longing glances. The Imperialists urge that the matter of evacuation is not needed yet, but the Juarists are so confident that Maximilian will leave in advance of the French that they are making preparations on a grand scale for the inauguration of the Republic.

The *Herald's* Brownsville, Texas, correspondent, writing under date June 4th, gives a view of affairs under Maximilian's rule that shows the Empire to be fast verging on anarchy.

◆

Later from Europe—Arrival of the Peruvian.

FARTHER POINT, June 18.—The Peruvian, from Liverpool on the 7th, and Londonderry on the 8th, passed this point en route to Quebec. Her dates are one day later.

Bullion in the Bank of England has increased £11,000,000.

The Prussian troops entered Holstein on the 7th. The Austrians were concentrating at Altona.

These movements are regarded as a virtual commencement of war.

In the British House of Commons the opposition had attempted a surprise on the Government by moving a postponement of the franchise clause in the Reform Bill, but were defeated by a majority of twenty-seven for the Government.

Mr. Walpole's amendment was also rejected, the Government majority being fourteen.

Trial of Fenian Prisoners.

NEW YORK, June 18.—A *Tribune's* St. Armand special says: Mr. Kelly, *Tribune* correspondent, has been released. The fourteen Fenians captured near Pigeon Hill are undergoing a private examination. George Crawford, an alleged Fenian spy, of Frelighsburg, is under arrest, and it is said that the evidence against him is very strong. It is said the prisoners will be sent to Sweetsburg for trial.

NOTICES.

NOTICE.

OFFICE UNITED STATES PRIZE CONCERT, }
WIGGINS, BRADFORD & CO., Proprietors. }

WE WOULD MOST RESPECTFULLY announce that in consideration of the following cogent (and we trust satisfactory) reasons, we have finally concluded that a postponement would be equally advantageous to the public and ourselves, namely, that we prefer to

Dispose of all the Tickets and give the Public all the Prizes,

than to hold a quantity of tickets (as proprietors usually do) and thereby enhance our chances of drawing the large prizes.

The drawn numbers will be published in the Chicago daily papers as soon as drawn, and when the drawing is over each agent will be furnished with a complete list of the drawn numbers.

In view of the above reasons, which we hope will prove eminently satisfactory.

WE HAVE POSTPONED THE DRAWING

FINANCE AND TRADE.

MONDAY, June 18, 1866.

Gold opened strong this morning 165¾ in New York, and though there were some outside quotations at 168, the market yielded at once to 164¼, 163, 158 and 155. After the reception of the steamer's news it advanced to 158¾. Five Twenties advanced to 102⅝, but afterwards receded. Seven Thirties very strong, owing mainly to the ease in the eastern money market.

To attempt to foreshadow the course of financial matters during the next four days is simply absurd. Should hostilities be commenced in Germany, large shipments of goods on consignment may be expected, and a further dram of specie looked for. On the contrary, if the news by the next steamer should look less warlike and more favorable financially, the premium on gold will recede; our securities will be in better demand, and importations of foreign goods will be materially restricted.

Our local stock market is dull, and, to some extent neglected, and generally speaking, quotations are above the views of buyers. Columbia oil is the only stock for which there are bids at quotations. Money is extremely scarce for any except A 1 signatures well endorsed.

The following statement exhibits the business of the Pittsburgh Clearing House for the week closing on Saturday, June 16:

	Exchanges.	Balances.
June 11	$346,615 41	$118,083 63
June 12	277,999 30	81,285 37
June 13	306,751 65	82,372 07
June 14	289,682 68	61,510 32
June 15	241,149 54	55,287 99
June 16	277,546 36	53,724 69
Total	$1,738,814 34	$453,373 47

—Our importations are taking a wider range, and now embrace wheat and flour. A recent letter dated at Berlin says:

Many of our manufacturers on the Rhine, on account of the stagnation of trade caused by the general political uncertainty have been obliged to discharge their workmen. Large consignments of goods will be made to New York. American merchants traveling on this continent, partly for pleasure and partly for making their purchases for the fall trade, will be enticed into wild speculations, as goods will be obtainable at any price. Your markets will be overstocked; your bond and warehouses crowded to extreme; the regular business will become unsettled; and while payments will have to be made in hard specie, the effect of our crisis must be deeply felt on the markets of your continent too.

—There seems to be some very green *suckers* still in Illinois, as will be seen by the following from the Chicago *Times*:

We were told of a merchant who visited one of our banks the other morning, and asked the cashier what he would ask for exchange. The cashier replied "one-tenth of 1 per cent premium." "Oh, I couldn't think of paying that, I can buy it at eighth premium, according to the papers." "How much do you wish?" said the cashier. "Some $5000," responded the merchant. "Oh, a round lot; well, I'll let you have it at that," said the cashier. It was a bargain, the merchant paying at the rate of ⅛ of 1 per cent, or $1,25 per thousand, when at 1-10 of 1 per cent premium, he would have paid but $1 per thousand.

—An evening New York cotemporary "learns from one of our leading financial men, who has just returned from Washington, that the Senate Finance Committee will probably, in the new Internal Revenue bill, repeal the 10 per cent tax on banks that pay out the old circulation of the State issues, and, in lieu of this impost, will insert a specific tax on all outstanding circulation of the old issues. The tax is to be paid by the banks having such notes outstanding. The amount of this tax is definitely fixed, but is probable that it will be 2½ per cent a year, payable monthly. This will obviously produce a very much larger revenue than would have been collected under the 10 per cent arrangement, while there is the further advantage that the currency will be contracted gradually instead of spasmodically and suddenly."

—The Cincinnati *Commercial*, of Sunday contains the following additional particulars in regard to confidence game practiced on one of the Cincinnati banks:

The fraud practiced on one of the city banks, alluded to in our last, seems to have been a very adroit, bold affair, the perpetrator evidently studied his part well, and executed it with skill. Through some means or other he appears to have made the acquaintance of a bank officer in Cambridge, Indiana, and to have obtained a plain letter of introduction to a bank officer here. He took this letter of introduction as a model in style on which to forge a full indorsement of his character and responsibility. Having deposited his chest of gold at the Third National Bank, and presented his letters with the grace of a gentleman of education and refinement, he also referred to Mr. T. Buchanan Read, of our city, as an acquaintance whom he had known some years ago, in Europe. The case so well put, the letter of indorsement so complete, made his negotiation a comparatively easy matter. It was that he might for a few days, be accommodated with the loan of about $4,000 Seven-Thirty notes, which he desired to use in the purchase of land in Wayne county, Indiana. He was accommodated, and has since been discovered to have perpetrated a fraud in St. Louis, and to have nothing but that to make good his credit here. The coolest part of his scoundrelism was that he managed to steal his forged letter of credit after handing it to the bank officer. Mr. Read remembers to have met the fellow in Europe under circumstances that indicated that he had a respectable position. Officers from St. Louis are on the scamp's steps, and he will very likely be overhauled.

—Our exchanges, particularly those in the West, generally seem very anxious to have the old State Bank "taxed to death." The Chicago *Tribune* in commenting on this subject says:

"The efforts of a few State banks left in the country to have the ten per cent tax delayed one year, excites considerable comment in financial circles. It is a well-known fact that nearly all the sound State banks have been changed into the National system, and there are only a few rotten Eastern concerns now in existence, who are waiting the opportunity to get a large circulation out, and then close their doors forever.

"But the West is interested in this matter to a much greater extent than is generally supposed. Although the bills of these rotten concerns do not circulate in the West—yet Western produce has to pay a tribute to them. The State Bank circulation of New York alone amounts to $22,000,000, and the bankers of Buffalo and Oswego refuse to pay checks with any other than this trash, so that every merchant who sells his produce there has to submit to a shave of ¼@½ of 1 per cent Exchange on New York. Shut off this State Bank circulation, and the Buffalo and Oswego bankers will be forced to pay greenback or National Bank notes on checks, and New York Exchange will then fall to par, as it is generally all over the West."

New York Money and Stock Market.

NEW YORK, June 18.—The demand for money is only sufficient to absorb a small portion of the supply, and the market is easy at 4@5 per cent., on call. The large advance in Gold to-day completely unsettled the market values. At the produce Exchange, flour rose 15@25 cents; wheat, 10@15 cents; corn, 3@4 cents; and oats, 2 cents. There was an active demand for Government securities this afternoon. The advance was well sustained. The following were the closing prices: 5-20 Coupons, 1862, 1,03¾@1,04¼; 10-40 Coupons, 95¾@96¼; July, do, 1,02⅝@1,02¾. The Gold market fluctuated at 1,56@1,59. Towards the close of the day it finally left off at 1,56¾@1,57. There have been days when the fluctuations in gold were wider, but they were more frequent than to-day, and the excitement was greater than any previous day in the history of the Gold Room. Transactions have been enormous and the speculators would make a respectable sized army.

At the second board the Stock market was generally steady, and a fraction better in some respects.

The *Post's* money article says: Though Gold is less active, it is still excited, and transactions have been at rapidly varying rates. The Loan market is extremely easy, but inactive. Call loans are easily obtained on first-class securities at 4@6 per cent. Discounts are scarcely so active, the rates ranging from 5½ to 8½ per cent. The Stock market is dull, but irregular. In response to the rise in Gold, old 5 20s have risen to 103⅛; but persons who have bought them for shipment find it difficult to sell their bill of exchange. Railroad shares are quiet, except Erie and Illinois Central, for which there is some foreign demand. Before the first session New York Central was quoted at 99¾; Erie at 58½; Pittsburgh at 82¾. Later, Erie sold at 59¼.

The Bank statement shows a decrease of $4,004,258 in specie, and in loans $2,237,412, while there is an increase in Legal Tenders of $4,500,630.

6 P. M.—Stocks steady. Governments strong. Gold 158. Pittsburgh, Fort Wayne and Chicago, 97½; Chicago and Rock Island, 94; Cleveland and Toledo, 106; Chicago and Northwestern, 30; do preferred, 59; Cleveland and Pittsburgh, 83¾; Hudson, 110¾; Erie, 59¾; New York Central, 99; Western Union Telegraph, 57½; 6s, 1881 coupons, 110¾; do registered, 106½; 5-20 coupons of 1862, 104; do '65, 103; 7-30, first series, 102½; 2d do, 102¼; Milwaukee and St. Paul, 1st mortgage, 99; Ohio and Mississippi Certificates, 27½.

The *Post* gives the following as among the principal sales of stock at the 4 o'clock call to-day: 300 Western Union Telegraph, 58; 100 do s 10s, 58; do 58¼. 200 New York Central, 99¼; 100 do s 3, 99¼; 300 Erie s 3, 59¼; 2100 do, 59¼; 400 do, 59¼; 400 do s 3, 59¼; 500 B 5, 59¾; 200 do 59¼; 400 Reading, 108⅝.

Gold closed at 155½, with a drooping tendency.

Oswego Market.

OSWEGO, June 18.—Flour steady, at $11,00 for No. 1 spring, $13,00 for red winter, and $15,50 for double extra. Wheat scarce and higher with an upward tendency; sales early No. 1 Milwaukee club at $2,35; No. 2 Chicago spring, $1,50. Corn scarce with an upward tendency; Illinois yellow held at 83c. Other grains are scarce and nominal. Canal freights dull and unchanged. Lake imports—190 bbls flour, 3,000 bush wheat, 22,000 bush corn. Canal exports—190 bbls flour, 31,000 bush wheat, 7,900 bush corn 5,100 bush peas.

Toledo Market.

TOLEDO, June 18.—Flour firm and advancing. Wheat 3c. better; sales new Amber Michigan $2,37; No. 2 Amber $2,05. Corn active, opening at 42½ and closing at 43¼. Oats 2½@3c. better. Lake freights dull. Receipts last week—15,000 bbls. Flour; 91,000 bush. Wheat; 121,000 bushels Corn; 90,000 bush. Oats; 4,000 bush. Rye; 1,000 bush. Barley. Shipments—15,000 bbls. Flour; 33,000 bush. Wheat; 100,000 bush. Corn; 34,000 bush. Oats.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, June 18, 1866.

The extraordinary advance in gold has produced a decidedly firmer feeling in the produce markets; and some articles are considerably excited, with a sharp upward tendency.

GRAIN—Wheat is very firm, and in light supply; sale of 1 car Club at $2,30—some holders asking $2,35. Oats firmer, but there is no improvement in the demand. No. 1 Chicago are held at 55, in elevator, while prime Ohio and Penna are quoted at 56@57. Corn is firm but unchanged; prime Shelled is selling at 80, on track. Barley may be quoted at 90 to $1,00. Rye, 90 to $1, and Buckwheat at $2,25.

GROCERIES—The advance in gold has made more of an impression on Groceries than almost anything else, but the market is so excited and unsettled that it is impossible to give accurate quotations. Coffee has advanced from 2@3c per pound; fair to strictly prime Rio being quoted at 30 to 33. Sugars of all grades are up fully half a cent per pound, and Molasses also, are looking up.

PROVISIONS—Bacon continues very firm, and prices have still further advanced, notwithstanding there is no material improvement in the demand. Shoulders are now quoted at 15¼@15½; Ribbed Sides, 18@18½, and Canvassed Sugar Cured Hams, 24@25. Lard is firm but unchanged at 22½@23 for steamed and prime kettle. Small sales of Mess Pork at $32,50@33.

FLOUR—Is firm with a continued fair local demand but prices have undergone no change. We continue to quote at $10 to $11 for Spring Wheat Family; $11,25@11,75 for half spring and half Winter; $12,50@13 for all Winter, and $14 to $16 for fancy brands. Rye Flour is selling at $6,75.

POTATOES—Steady but unchanged. Regular sales from store at $1,15 to $1,25 per bushel, and $3,25@3,50 per bbl, according to quality. New crop Jersy Potatoes are selling at $9 per barrel.

EGGS—A shade firmer and with an improved demand prices have advanced to 23@24, some holders asking 25.

BUTTER—Continues very dull and neglected, the demand being very much restricted, though it is but proper to state that the arrivals have been light for some days past.

HAY—There is a very good demand for prime Hay and there is but very little of this kind offering, while common and inferior is not wanted. We continue to quote at $24 to $28 per ton, the outside figure for prime Timothy. Baled is in light supply and but little coming in.

OIL—No. 1 Lard is selling at $1,83@1,85.

FLAXSEED—In demand at $2,65@2,70.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, June 18, 1866.

CRUDE—There was apparently a little more life in the Crude market to-day, at all events the transactions in the aggregate were much larger than on Saturday, though prices have undergone no quotable change. The advices from the east continue discouraging, the advance in gold to the contrary notwithstanding, and the intelligence from Europe by the last steamer was also very unfavorable. The sales reported to-day were as follows: 600 bbls, in bulk, at 13½; 500, in bulk, at 13½; 400 in bulk, (40 gravity) at 13¾; 150, bbls returned, at 13½; and 200 at 18½, packages included. There is some inquiry for shipment east, the buyer to have the privilege of returning packages, but as a general thing, holders refuse to sell unless the purchaser takes packages as well as the oil. The barrels, it is said, are always considerably behind time in getting back again, and besides, they are often in very bad condition by the time they reach here, after having made a trip to Philadelphia, New York or Baltimore.

REFINED—The market for bonded oil was a little more active than for some days past, the transactions in the aggregate being unusually large, but we regret to say prices are no better. Sales of 500 bbls for August, at 43; 500 for September, at 44; 200 for September, at 45; 1500, in three lots, of 500 each, for October, at 45; and 200 for October, at 46—all to be delivered in Philadelphia. There was evidently a little more inquiry for oil to-day than on Saturday, but, as will be seen by reference to the sales above noted, some holders are making concessions in order to effect sales. On Saturday evening, there was a sale of 500 bbls for July, delivery in Philadelphia, at 41½, but this figure could not now be realized for that month. In free oil there is next to nothing doing, and prices are entirely nominal.

Boston Wool Market.

BOSTON, June 16.—The wool market continues quite active, considering the small amount of staple new available here, and at all points upon the seaboard. Prices are firm for all grades, and for very desirable lots, wanted for immediate use, a slight advance upon previous rates is easily realized. The result of "prospecting" in the West by manufacturing agents, and the reports of sales of the new clip in that quarter, have rather tended to increase their confidence in the stability of present values, and induced consumers to make the most of their remaining chances in the Eastern markets. Hence we find considerable competition among buyers of old wool and the balance of stocks is being rapidly closed out.

The exigencies or apprehensions of some Eastern manufaturers have induced them thus early to send out orders to their purchasing agents in Ohio, and we hear of sales on the spot at a range of 50@60c and upwards for choice fleeces, which rates are relatively higher than those for which old wool is selling in this market. It is to be feared that these early buyers in their anxiety to be first in the market, will, as in years past, precipitate the advance in wool prices which they feared, and gain opportunity by their haste to repent at leisure at a later period of the season.

Sales of domestic for the week foot up some 425,000 lbs, at a range of 45@75c for fleece, and 40@72½c for the various grades of pulled.—*Bulletin.*

Old No. 1s are nominal at $19,50 per bbl. A very large fleet is being fitted out for the Bay fishery, the port of Gloucester alone sending some four hundred sail. The business is stimulated by prevailing high prices; and, if no obstacle is interposed by our Provincial neighbors, on the ground of exclusive privilege, the catch will largely exceed that of any past season.

Baltimore Butter Market.

BALTIMORE, June 15.—The prevailing low prices of the past week caused an active demand for prime Western, and the market has been cleared of everything desirable at 25c, closing at 23@25c, latter for choice. Flaxseed has again advanced, and sales have been reported as high as $3,25@3,30, but the crushers generally refuse to pay the latter price. RIVER NEWS.

The river is still receding slowly at this point with scant four feet in the channel by the pier marks last evening. It is confidently predicted, however, that the recent rains, which appear to have been general, will result in a rise, and we should not be surprised to find the river rising here to-day. Telegrams from Oil City report the Allegheny rising slowly, with twenty-seven inches in the channel at that point.

There has not been a single arrival from below since our last report. The Pine Grove, from Cincinnati, will probably reach here tomorrow, and the Camelia may be expected in about the latter part of the week.

Business, we are sorry to state, continues very dull at the wharf, freights being very scarce for all points, and boats experience great difficulty in securing trips. We are cognizant of boats having laid here three and four days last week, and then going out with but little over half a cargo.

The new steamer Pine Bluff left for Arkansas river last evening, with a fair trip—she will fill out at Cincinnati. The Elector and Gallatin left for Brownsville last evening, and the Bayard cleared for Parkersburg on time. The Leni Leoti is due here from Parkersburg this morning.

The Emma No. 3, Capt. Jas. H. Marratta, is filling up steadily for St. Louis, and will probably be ready to take her departure this evening. The Emma is one of the finest boats that comes to this port, and we can recommend her as such to both passengers and shippers. The clerk, Mr. Eakin, is a very courteous and attentive officer.

The staunch and commodious Kate Putnam, Capt. J. H. Lightner, with Mr. J. D. Young in the office, is announced for Cincinnati and Louisville this evening, and the new steamer R. C. Gray, Capt. W. B. Anderson, is announced for St. Louis and the Upper Mississippi forthwith.

The Importer and Columbia arrived at St. Louis on Friday last, and the Glasgow and Argonaut were loading there the same day for Pittsburgh. The St. Louis *Democrat* of Saturday, says:

Captain E. A. Sheble, yesterday, bought one-half of the steamer J. G. Blackford, for $11,000, from Messrs. Cuthbert & Wright, of Cincinnati. The boat left yesterday, and is to be delivered to Captain Sheble at Cincinnati. He will command her, and put her into the Upper Mississippi trade, with barges. Louis Papin, St. Louis and New Orleans pilot, died a few days since in Carondelet, Mo. He came up on the Lilly a short time before his death. The towboat Imperial and barges, from Pittsburgh, have safely reached their destination on the Upper Mississippi.

The new steamboat law, as it passed the Senate, is now before the Lower House of Congress, and will doubtless soon become a law. It regulates steam, steamboats, and inspectors, paying the latter pretty good salaries. It provides that the shell of no steamboat boiler shall be constructed of iron over three tenths of an inch in thickness. It also regulates the connections of the boilers with each other, and remedies a good many of the defects heretofore practised in the construction of boats on our Western rivers.

CHOLERA DISARMED!!!

The Chief Cause of Pestilence Destroyed!

DR. E. COURTARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 298, 300 and 302 Henry Street, N. Y. Office, 32 Cedar Street.

This Company organized on a permanent basis, with Dr. Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter to every farmer), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gasses and odors by chemical principles—leaving in their places *healthful air*, they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others can be seen at the Company's office.

DELAVAN HOUSE, ALBANY, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors.

T. ROESSEL & CO.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co.

Dear Sir: We pronounce it, without exception, to be the best we have ever known. Its effect upon every matter is complete and instantaneous.
